

CARGO CONSTRUCTION STORY

A HIGHER STANDARD. THIS IS WHERE THE RUBBER MEETS THE ROAD

Pace American trailers are built by racers for racers. We've refined even the smallest detail of the trailer design and manufacturing process to assure our trailers work and last. Shop and compare other brands—by looking beyond the surface, you'll see how they simply don't measure up to Pace's quality. And we know that it's the little things that make huge differences in how a trailer will perform—at the track and thousands of miles down the road. Pace American does it right. Are you proud of what you pull?

SEE THE DIFFERENCES UP CLOSE

NOT ALL TRAILERS ARE CREATED EQUAL. AT PACE AMERICAN, EVEN THE SMALLEST, HIDDEN DETAILS ARE SUPERIOR TO OTHER BRANDS. CHECK OUT A FEW OF THE MANY PACE ADVANTAGES PICTURED ON THE NEXT PAGE. ASK YOUR AUTHORIZED PACE DEALER TO SEE OUR "101" TRUNK. IN IT YOU'LL FIND ACTUAL PACE PARTS VERSUS THOSE OF THE COMPETITION. WE HAVE NOTHING TO HIDE!

OUR PROFESSIONAL WELDERS HAVE THE EXPERIENCE AND TRAINING TO ASSURE YOUR TRAILER'S STRUCTURE IS BUILT TO THE HIGHEST STANDARDS.

SOLID CORE DOORS ARE TOUGHER AND LONGER LASTING THAN OTHER BRANDS. SIDE DOOR STEPWELLS ARE MADE OF NO-RUST GALVANEAL.

COMPARE THE DIFFERENCES

ELECTRICAL SYSTEMS INCLUDE JUNCTION BOXES, SCHEMATICS AND AUTOMOTIVE-STYLE CONNECTORS. NO CHEAP STUFF!

EACH DOOR IS SEALED WITH A PREMIUM D-BULB WEATHER STRIPPING LIKE AUTOMOBILES. WE DON'T USE FOAM TAPE.

BETTER LOOKING, INTEGRATED ROOF STRUCTURES, UNLIKE OTHER BRANDS' COSMETIC ADD-ONS, ARE HEAVY-DUTY.

EXPOSED WELD JOINTS ARE WIRE BRUSHED AND COATED WITH ZINC BASED PRIMER. OTHER BRANDS WILL RUST.

PATENTED DUST-PROOF SIDEWALLS W/BOXED OUTRIGGERS STOP DUST AND FUMES AND PROVIDE SIDEWALL STRENGTH.

CONSTRUCTION FEATURES

All Pace American trailer models and options are designed by our in-house, full time engineering department. Other brands do not make this commitment. Rest assured, when you order your trailer from Pace, your expectations will be exceeded. A Pace trailer will work harder, look better, last longer and be worth more at trade-in time than any other brand! Here's why:

- Patented dust-proof sidewalls
- Undercoating
- Dexter® Independent Torsion Suspension (ITS) axles with E-Z lube hubs
- Semi-style door bar locks are zinc and clear coated for long life
- ABS front cap
- Premium Fulton brand nose jack
- Rear header and corner posts wrapped in body color aluminum
- Heavy-duty side and rear door floor trims with recessed screws
- Automotive style weatherstripping
- Modular-style wheels with E-coat prime and powder coat finish for durability and looks
- All wheel electric brakes with 12v breakaway switch, battery included (TA2 and above)
- Welded-in-place safety chains with A-frame hangers
- A-frames are capped at front to prevent debris and rust

- Long life coating on trailer fasteners
- Phosphate power washed trailer frames are painted with a two-step premium paint process
- Trailer-rated radial tires
- Formed steel rear trailer header and inside cover
- Heavy-duty bottom trim on trailer
- Strong premium all-steel welded uni-body frame construction
- .030 exterior metal with 16" on-center wall posts
- Semi trailer quality 12v lighting
- Aluminum fenders
- High-tech roof sealant for additional resistance to leaks
- ABS molded license plate holder with built-in light
- 3/4" plywood floors
- 3/8" plywood walls
- .080 hard aluminum top wrap with drip rail (CargoSport and AeroSport Series round top models only)
- Riveted roof (CargoSport and AeroSport round top models only)
- Truck-body styled flat top roof design, cast aluminum rear corners and stainless steel front corners (Conquest models)
- 11 standard colors
- 3-year Honest, Fast and Fair limited warranty
- Comprehensive owner's manuals
- And many more
